Express, Store and Feed Set

Natural motion technology for a quicker milk flow*

The ideal set for mums who plan to express; with all you need to express & store your breast milk and feed your baby. Our baby bottles, with an ultra soft teat closely resembles the breast, make it easy to combine bottle & breast feeding.

Express

- Natural motion technology for a quick milk flow*
- One size soft and adaptive silicone cushion
- Express without leaning forward
- Personalized experience, 8 + 16 setting levels
- Quiet motor for a discreet experience anywhere (corded use)

Store and transport securely

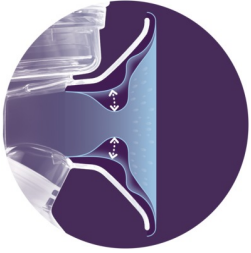

- For safe storage and transport
- Convenient adaptors included
- For use in fridge and freezer

Easy to combine breast and bottle feeding

- Natural latch on due to the wide breast shaped teat
- Ultra soft teat designed to mimic the feel of the breast
- Anti-colic valve designed to reduce colic and discomfort

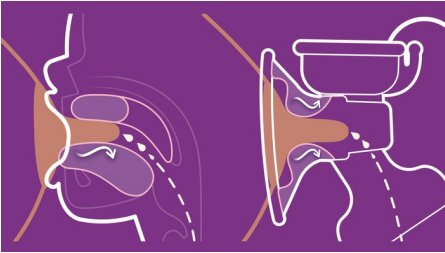

Highlights

Quick milk flow*

Express more milk in less time* with a cushion that stimulates the breast to express milk just like baby. It seamlessly adjusts from stimulation mode to expression mode', and applies just the right amount of nipple stimulation and suction for maximum milk flow. Based on milk flow initiation time (time to Milk Ejection Reflex - MER) results.*

Adapts to your nipple

One size fits all. Because we all come in different shapes and sizes, the silicone cushion gently flexes and adapts to fit your nipple. It fits 99.98% of nipple sizes* (up to 30mm).

Sit comfortably

Feel relaxed as you express thanks to a design that lets you sit upright rather than having to lean forward. No need to lean forward, clinically proven comfortable expressing position*. Based on product clinical trial results with 20 participants (2019); 90% of participants find the expressing position comfortable (single electric); 95% of participants find the expressing position comfortable (double electric).

Personalize to your needs

Finely tune every session to your needs with a wide range of stimulation and expression settings. Our breast pump offers 8 stimulation and 16 expression levels for a personalized experience.

Express anywhere discreetly

Express whenever and wherever you like thanks to our quiet motor with a slimline design. Corded use only.

Leak proof lid

Philips Avent storage cups have a lid that creates a secure seal for safe storage and transport.

Convenient adaptors included

For expressing and feeding.

For use in fridge and freezer

For maximum flexibility.

Natural latch on

The wide breast shaped teat promotes a natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Ultra soft teat

The teat has an ultra soft texture, designed to mimic the feel of the breast.

Anti-colic valve

Anti-colic valve designed to keep air away from your baby's tummy, to help reduce colic and discomfort.
