## Zero interference and private connection guaranteed

## Sound and temperature monitoring

Our Philips AVENT SCD525/00 DECT Baby Monitor makes you feel close to your baby, even when you are not in the same room. With our new ECO mode, you can also be friendlier to the environment, whilst not losing that vital connection.

### Zero interference and private connection

- DECT technology guarantees zero interference and 100% privacy
- Energy saving ECO mode

### Crystal clear sound

- Reassurance with crystal clear sound
- Choose the best sound level for your surroundings
- LEDs light to signal noise levels

### 330 m range

- Rechargeable wireless parent unit
- Always know that you are connected
- Up to 24 hour operation time before recharge

### Total comfort

- Monitor the temperature in baby's room
- Remote activated night light and lullabies
- Stay connected with talk back

# Highlights

## ECO mode

ECO mode allows you to lower your energy consumption and transmission power

## Zero interference

DECT technology guarantees zero interference from any other transmitting product like other baby monitors, cordless phones and mobile phones. Data encryption provides a secure and private connection, so you can be sure that you are the only one that can hear your baby

## Reassuring crystal clear sound

Hear every tiny giggle, gurgle and hiccup with perfect clarity. DECT technology provides high quality, crystal clear sound so you can hear your baby anytime

## Superior operating time

The small, rechargeable parent unit will give you the freedom of cordless roaming for up to 24 hours before re-charging is required

## Digital temperature display

Your baby can't regulate its body temperature as well as you can and a slight change in temperature can make your baby restless. A special electronic temperature sensor will immediately alert you, through the digital display on the parent unit, if your baby's room becomes too hot or too cold

## Adjustable sound sensitivity

Enables you to adjust the sound and volume levels, so you can hear every giggle, gurgle and hiccup

## Rechargeable parent unit

With a range of 330 m, belt clip and neck cord so you can be fully mobile in and around the home

## Out of range/low power signals

The parent unit of the Philips AVENT baby monitor will alert you when the power is low or if you are out of range

## LEDs light to signal noise

Lights are activated to indicate the level of sound in your baby's room. Even with the parent unit is muted, a sound alert will notify you when a set sound level is reached
