Highlights

Overheat protection

To avoid the danger of accidentally burning your baby's mouth, the automatic switch off ensures the food does not get too hot.

PTC heating element

To avoid the danger of accidentally burning your baby's mouth, the automatic switch off ensures the food does not get too hot.

Double insulation

With your safety and convenience in mind, the double insulated bottle warmer is designed to be used in every room in the house, not just where a earthed mains socket is available. There are no exposed metal parts that can become live.

Disinfects completely

Protect your newborn baby from any harmful household bacteria or germs by disinfecting her bottles, teats, pacifiers and small plastic toys.

Holds 4-6 bottles

Convenient use of the sterilizer means having the disinfected bottles ready when you need them. This means fitting all bottles needed for a day's feeding into the sterilizer in one go.

No chemicals needed

Chemical residues in baby's food are a nightmare to think about. Therefore, sterilization is done by using very hot steam.

Fits all bottle and jar types

The product is designed in such a way that all kind of sizes and shapes of bottles and jars fit in.
