Highlights

Orthodontic nipple

Philips Avent flat, drop-shaped symmetrical nipples respect the natural development of your baby's palate, teeth and gums, even if the pacifier ends upside-down in the mouth.

User-friendly silicone nipples

The Philips Avent silicone nipple is taste and odor-free so it's more likely to be accepted by your baby. The silicone is smooth, transparent, easy to clean and it doesn't get sticky. The nipple is strong, long-lasting and won't become mis-shapen or discolored over time.

Snap on hygienic cap

To keep sterilized nipples hygienic.
