Easily clean baby's bottles and nipples

- This bottle is dishwasher proof
- No bottle damage

Orthodontic nipple

- Designed especially for newborn babies

Highlights

Bottles clinically proven

Unique anti-colic system consists of the Philips Avent nipple and adaptor ring allowing air to flow into the bottle instead of your baby's tummy for better digestion.*

Microwave steam sterilizer

Compact and lightweight (fits most microwaves), Convenient for travel, Large capacity (holds 6 Philips Avent bottles), Ultra fast, easy to use (just add water, load and place in the microwave), Safe easy handling (side grips close the lid securely)

Bottle and nipple brush

Specially curved brush head and molded handle-tip reach the corners of all types of bottles, nipples and feeding equipment for thorough cleaning.

Milk powder dispenser

This handy little unit carries 3 pre-measured portions of milk powder in separate compartments. When you're ready to feed, just pour the powder into the bottle of pre-boiled cooled water. Remove inner sections to use as a bowl or container.

Orthodontic Silicon Nipple

The pacifier's specially shaped silicone nipple is orthodontically designed to fit your baby's mouth and will not inhibit natural development. Use it with confidence to pacify your baby.

Dishwasher proof bottle

Sterilize in a Philips Avent sterilizer, a dishwasher or by boiling in water.

No bottle damage

Round brush reaches hard-to-clean bottle interior. Plastic bristles won't scratch or damage bottles.
