

Philips Avent Digital Video Baby Monitor

The Philips Avent Video Monitors let you to maintain a secure and private connection with your baby at all times. Hear your baby with perfect sound quality and see your baby in crystal clear vision (2.7" or 3.5" LCD), whether it is day or night.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.
