## The natural way to bottle feed

### Extra soft and flexible nipple

Our new nipple, with skin soft material and flexible spiral design, more closely resembles the breast. The comfort petals and natural nipple shape allows natural latch on and makes it easy to combine breast and bottle feeding.

#### **Easy to combine breast and bottle feeding**

- Natural latch on due to the wide breast shaped nipple
- Skin-soft teat designed for a natural feed

#### **Vents air away from your baby's tummy**

- Unique anti-colic valve technology

#### **Other benefits**

- Designed for your baby's changing needs

#### **A comfortable and contented feed for your baby**

- Flexible spiral design combined with comfort petals
- Slower flow nipple for your newborn baby

# Highlights

# Specifications

## Natural latch on

The wide breast shaped nipple promotes a natural latch on similar to the breast. Designed to give a more comfortable and contented feed for your baby.

movement without nipple collapse. Designed to give your baby a more comfortable and content feeding.

## Anti-colic valve technology

Reduces fussing and discomfort by venting air away from baby's tummy.

## Skin-soft teat

The skin-soft nipple material closely resembles the feeling of the breast, making it easy for your baby to combine breast and bottle feeding.

## Baby's changing needs

The Philips Avent Natural bottle is available in 4 sizes and 7 different nipples for every development stage of your baby. With different nipple softness, flexibility and design and with increasing flow rates and bottle sizes that keep up with your baby's growth and development.

## Development stages

Stage: 0m
