- Express without leaning forward
- Choose your rhythm, follow your milk flow

#### Portable and convenient

- Ideal for moms who pump on-the-go

#### Simple, gentle and effective

- One-size soft adapting silicone cushion
- Helps you release milk fast

# Highlights

## Natural Motion Technology

The innovative silicone flange - inspired by baby's unique suckling action - stimulates the nipple to help start your milk flow, fast. For comfortable and effective expression.

## Adapts to your nipples

One size fits all. Because we all come in different shapes and sizes, the silicone cushion gently flexes and adapts to fit your unique anatomy. Fits 99.98% of all nipple sizes\* (up to 30mm).

## Finding the right nipple is important

If your newborn baby is consistently not taking enough milk throughout the feeding sessions or has complications in getting milk, switch to a nipple with a higher flow rate. If persistent feeding issues occur, consult a healthcare professional.

## Portable and easy to use

The breast pump is small and lightweight, which means it is easy to store and transport, making pumping on-the-go simple and discreet.

## Fast milk release

A unique, portable manual breast pump – ideal for mothers who need to gently release their milk while away from home, or before breastfeeding.

## Suction and flow control

Feel free to adjust the pumping rhythm and suction to suit your needs, comfort and milk flow.

## Sit comfortably

Relax and sit comfortably while you express - thanks to our design that lets you sit upright, rather than having to lean forward.

## Easy to clean and set up

Because there are only a few parts, our new pump is easy to set up and clean.

## Express and feed

To feed using your expressed milk, simply attach the soft nipple to the bottle container. To store your milk for feeding later on, close the bottle using the sealing disc.

## Find the right nipple flow

Every baby feeds differently, and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalize your bottle. All of the Natural Response Nipples are made of soft silicone.

# Specifications

## Material

**Bottle:** Polypropylene, BPA free\*
