

Philips AVENT  
Single Electronic Breast  
Pump

Out and about set

SCF292/13

## Designed for comfort

Inspired by nature

Our unique Out & About BPA-Free pump is designed with an electronic memory that puts you in control by learning and continuing your personal pumping style.

### Benefits and features:

- Learns and continues your pumping rhythm
- With insulated travel bag and cool packs

### Helps you breastfeed longer

- More milk, naturally

### Stimulate and express

- Soft massage cushions trigger natural let-down, like baby
- Gentle vacuum mimics baby's suckling for steady milk flow

### Use three ways

- By mains power, battery power and manual

**PHILIPS**  
**AVENT**

## Development stages

- Stage: 0–6 months

SCF292/13

# Highlights

## With insulated travel bag and cool packs

Everything you need to maintain your milk supply and to express and store your breast milk when away from your baby.

## Soft massage cushions

The patented massage cushions of the Philips Avent breast pump flex in and out, replicating baby's suckling action and are intended to help stimulate a fast natural let down.

## Gentle-draw vacuum

The gentle-draw vacuum mimics baby's suckling to create a steady milk flow that requires less pumping.

## Learns and continues your pumping rhythm

Electronic memory learns and, at the touch of a button, continues your personal pumping rhythm.

## Mains, battery and manual

In addition to mains power, this single electronic pump can also be operated using battery power or it can convert to a manual pump, for total flexibility.

## More milk, naturally

Expression allows breast milk to be available, even when you can't be there
