Single Electronic
Breast Pump

SCF302/01

 Product Picture

Designed for comfort

Breast pump inspired by nature

The unique Philips Avent BPA-Free Manual Breast Pump SCF302/01 assures you enhanced efficiency, being clinically proven to express more milk than a hospital-grade double electric pump*.

Benefits and features:

- Learns and continues your pumping rhythm

Helps you breastfeed longer

- More milk, naturally

Stimulate and express

- Gentle vacuum mimics baby's suckling for steady milk flow
- Soft massage cushions trigger natural let-down, like baby

Use three ways

- By mains power, battery power and manual

Highlights

Gentle-draw vacuum

The gentle-draw vacuum mimics baby's suckling to create a steady milk flow that requires less pumping.

Soft massage cushions

The patented massage cushions of the Philips Avent breast pump flex in and out, replicating baby's suckling action and are intended to help stimulate a fast natural let down.

Learns and continues your pumping rhythm

Electronic memory learns and, at the touch of a button, continues your personal pumping rhythm.

More milk, naturally

Expression allows breast milk to be available, even when you can't be there

Mains, battery and manual

In addition to mains power, this single electronic pump can also be operated using battery power or it can convert to a manual pump, for total flexibility.

Country of origin

England
