

PHILIPS

AVENT

Single Electronic
Breast Pump

Out and about set

SCF302/13

Designed for comfort

Electric breast pump inspired by nature

The unique Philips Avent Out & About BPA-Free electric breast pump is designed with an electronic memory that puts you in control by learning and continuing your personal pumping style.

Benefits and features:

- Learns and continues your pumping rhythm
- With insulated travel bag and cool packs

Helps you breastfeed longer

- More milk, naturally

Stimulate and express

- Gentle vacuum mimics baby's suckling for steady milk flow
- Soft massage cushions trigger natural let-down, like baby

Use three ways

- By mains power, battery power and manual

Highlights

Mains, battery and manual

In addition to mains power, this single electronic pump can also be operated using battery power or it can convert to a manual pump, for total flexibility.

Gentle-draw vacuum

The gentle-draw vacuum mimics baby's suckling to create a steady milk flow that requires less pumping.

Learns and continues your pumping rhythm

Electronic memory learns and, at the touch of a button, continues your personal pumping rhythm.

More milk, naturally

Expression allows breast milk to be available, even when you can't be there

Soft massage cushions

The patented massage cushions of the Philips Avent breast pump flex in and out, replicating baby's suckling action and are intended to help stimulate a fast natural let down.

With insulated travel bag and cool packs

Everything you need to maintain your milk supply and to express and store your breast milk when away from your baby.
