Power

- Mains power: AC 220 240 V
- Power consumption: 35 W
- Frequency: 50/60 Hz

Weight and dimensions

• Product dimensions (W x D x H): Ø 240 x 330 mm

Technical specifications

• Noise level: < 35 dB

Technical specifications

- Temperature measurement range: -10-40 °C
- Relative humidity range: 20% 80% RH
- Evaporation output: 250 ml/h
- Evaporation technology: Ultrasonic
- Water tank volume: 2 L

SCH580/20

Highlights

Prevents mucous membrane irritation

By creating a comfortable humidity level, the ultrasonic humidifier helps protect your baby against sore throats and irritation to the mucous membrane. This has a positive effect on building up resistance to infection.

Helps maintain baby-soft skin

Adding moisture to the air helps with keeping your baby's delicate skin healthy and soft.

Hygrometer and thermometer handset

A hygrometer and thermometer handset is included to let you monitor and maintain the ideal humidity and temperature levels of your baby's room. (Ideally, between 16 to 20°C with a relative humidity of 40 to 60%).

Adjustable mist output

Simply set the mist output to suit day-to-day conditions and your baby's needs.

No condensation

A safe and natural system for your home - The cool, healthy mist created by high-frequency ultrasonic waves does not cause condensation or increase room temperature.

Completely safe, cool mist output

A safe and natural system for your home - The cool, healthy mist created by high-frequency ultrasonic waves does not cause condensation or increase room temperature and is totally safe for your baby.

Operates silently Thanks to the extremely silent operation of the humidifier, your baby can sleep peacefully.

Automatic stop
