Ultra-fast bottle warmer

SCF250/00

The perfect temperature in 3 minutes

When your baby is hungry, you want to have a warm bottle of milk immediately. The ultra-fast bottle warmer reliably heats bottles and jars in under three minutes.

Baby's food never too hot

- The baby's food never gets too hot
- Temperature control system
- Safe cool wall due to double insulation
- Graduated temperature control
- Click-step temperature setting

Highlights

Temperature control system

The latest heating technology incorporates a PTC heating element, and two sensors ensure that the water in the beaker quickly reaches the ideal temperature and maintain it at a safe level that won't burn your baby's mouth with food or milk that is too hot.

Overheat protection

To avoid the danger of accidentally burning your baby's mouth, the automatic switch-off ensures that the food does not get too hot.

PTC heating element

To avoid the danger of accidentally burning your baby's mouth, the automatic switch-off ensures that the food does not get too hot.

Double insulation

With your safety and convenience in mind, the double insulated bottle warmer is designed to be used in every room in the house, not just where an earthed mains socket is available. There are no exposed metal parts that can become live.

Click-step temperature setting

With the Click-step temperature setting you can adjust the setting to suit the different types of food and bottles and jars you want to heat up.
