Highlights

Guaranteed zero interference

Guarantees zero interference from any other device (other baby monitors, cordless phones and mobile phones). Provides a secure and private connection using data encryption. You will be the only one who can hear your baby and you will only hear your own baby.

Sound level lights

Uses lights to indicate if the baby makes a noise, even with volume off.

Digital signal confirmation

Indicates a continuous connection between the baby and the parent unit with visible and audible link indicators.

Small, mobile parent unit

Allows you to freely roam around the house due to the small size, but still hear when your baby needs you.

With a range of up to 300 m

With a range of up to 300 m you are assured of a secure reception in and around the house.

Talk-back

Allows you to talk back to the baby.

Starry night-light

Nightlight with soothing stars to comfort your baby.
