

PHILIPS

AVENT

Twin Electronic
Breast Pump

SCF304/02

 Product Picture

Designed for comfort

Inspired by nature

Our unique BPA-free pump is designed with an electronic memory that puts you in control by learning and continuing your personal pumping style.

Benefits and features:

- Ultra comfortable and effective
- Control at your fingertips
- Infinitely variable speed, vacuum and rhythm — no pre-sets
- Quiet, effortless and portable
- Pumps more milk faster

Stimulate and express

- Soft massage cushions trigger natural let-down, like baby
- Gentle vacuum mimics baby's suckling for steady milk flow

Highlights

Gentle-draw vacuum

The gentle-draw vacuum mimics baby's suckling to create a steady milk flow that requires less pumping.

Soft massage cushions

The patented massage cushions of the Philips Avent breast pump flex in and out, replicating baby's suckling action and are intended to help stimulate a fast natural let down.

Infinitely variable control

Enjoy complete control over speed, vacuum and rhythm — you can even set the pump to match your baby's own suckling action.

Intuitive control handle

Everything that controls the pump is at your fingertips and close to the breast, which means you can make adjustments instantly and intuitively — no need to reach elsewhere.

Patented Let-down Massage Cushion

Five soft petal massagers gently flex in and out, working in tandem with the reliable vacuum. This is intended to help stimulate a fast, natural milk flow.

Pumps more milk faster

Double pumping has been shown to improve milk production. The twin electronic breast pump is the only breast pump designed to maintain the same level of vacuum and control for both pumps, which helps to ensure effective use.

Quiet, effortless and portable

Quiet, effortless and portable

Specifications

Power

Voltage: 100–240 V
