AVENT

Manual breast
pump

with disposable breast pads

SCF300/15

Express more. Quickly.

Enhanced efficiency from a manual breast pump

A manual breast pump offers you total control of the suction level and pumping rhythm. The unique Philips Avent Manual Breast Pump assures you enhanced efficiency, being clinically proven to express more milk than a hospital electric pump*

Helps you breastfeed longer

- More milk, naturally

Clinically proven effective

- Patented Let-down Massage Cushion

Stimulate and express

- Soft massage cushions trigger natural let-down, like baby

Flexible and portable

- Easy to assemble and use

Disposable Breast Pads

- Unique four layered construction for maximum dryness

Highlights

Easy to assemble and use

Quiet and portable.

More milk, naturally

Expression allows breast milk to be available, even when you can't be there

Patented Let-down Massage Cushion

The five soft petal massagers of the Philips Avent breast pump gently flex in and out as you pump and work with the vacuum to imitate your baby's suckling.

Soft massage cushions

The patented massage cushions of the Philips Avent breast pump flex in and out, replicating baby's suckling action and are intended to help stimulate a fast natural let down.

Unique, layered construction for maximum dryness

1. ULTRA soft top layer with nipple indent — keeps breast dry at all times. 2. ULTRA absorbent layer, cushioned for extra comfort. 3. ULTRA absorbent core — draws in moisture to guard against embarrassment. 4. ULTRA breathable outer layer — helps avoid sore nipples. Anti-slip with adhesive tapes — keeps pad in place.
