 Product Picture

For healthy, active feeding

Clinically proven to reduce colic

The Philips Avent Airflex feeding bottle uses the unique Avent Airflex teat, which promotes healthy, active feeding and works with baby's natural feeding rhythm. The Airflex teat makes it easier for baby to switch between breast and bottle.

Benefits and features:

- Clinically proven to reduce colic
- Easy to combine breast and bottle feeding
- Built-in Airflex Valve

Highlights

Combine breast and bottle

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding

Built-in Airflex Valve

The Avent Airflex Feeding Bottle uses an Airflex Valve which works with baby's natural feeding action.

Clinically proven to reduce colic

A clinical trial demonstrated that at 2 weeks of age, babies fed with the Avent Bottle experienced less colic than babies fed with a conventional bottle. (www.philips.com/Avent).
