

Philips
Analogue baby monitor

SCD469/00

Automatically rings your phone

Functions as a regular baby monitor. However, there are occasions when you need that extra freedom a regular monitor is unable to provide for example, when you are gardening. With the Dial Up monitor you can easily switch to the dial up mode

Convenience for you and your child

- Provides the ability to allow you to talk to the baby
- See baby's sounds even with the volume off

Complete peace of mind

- Indicates a continuous connection between the two units
- For reduced interference
- Pick up the phone and listen to your child
- For total flexibility
- Extend the reception range for virtually unlimited distance

Ultimate mobility in and around the house

- When used as a regular baby monitor, in open air
- Rechargeable parent unit for minimum 24 hours of monitoring

PHILIPS
