Highlights

Clinically proven to reduce colic

Duration of reported colic per 24 hours at 2 weeks

A clinical trial demonstrated that at 2 weeks of age, babies fed with the Avent Bottle experienced less colic than babies fed with a conventional bottle. (www.philips.com/Avent).

Built-in Airflex Valve

The Avent Airflex Feeding Bottle uses an Airflex Valve which works with baby's natural feeding action.

Combine breast and bottle

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding
