

Philips
InfraCare infrared lamp

650 W

Half body treatment
124 cm high

HP3643

Effective pain relief

Deep penetrating infrared warmth

Philips InfraCare provides effective pain relief for muscles and joints. Its 650 W infrared lamp is very comfortable and the infrared warmth penetrates deep into the skin, stimulates blood circulation and provides relief for half-body areas of 60x40 cm.

Easy to use

- Adjustable angle with rotation
- Easily reaches neck and shoulders

Effective pain relief

- Deep penetrating Infrared warmth

Half-body treatment

- 650 Watt infrared halogen lamp

Stimulated blood circulation

- Stimulates blood circulation

PHILIPS

Highlights

650 Watt infrared halogen lamp

The Philips InfraCare HP 3643 has been optimised for effective relief of pains in areas covering 60 x 40 cm, such as the entire back, both shoulders and neck or thigh. The InfraCare features innovative infrared halogen lamp technology. The special optics, filter and the powerful halogen lamp of 650 Watt have been optimised, enabling half-body treatment (60 x 40 cm), and much more comfortable warmth, as the infrared warmth is more equally divided over the treatment area.

Adjustable angle with rotation

The InfraCare HP 3643 is easy to use for half-body treatment and for different situations (e.g. lying on a bed or sofa) due to its maximum flexibility. In addition to the height adjustment, the lamp house can easily be positioned for optimum treatment of the right body part by moving it into a horizontal or vertical position (left/right 90 degrees) and by tilting it up or down (45 degrees).

Easily reaches neck and shoulders

The InfraCare HP3643 can easily reach neck shoulders to give optimal warmth treatment of sore muscles. The height of the lamp house can be extended from 60 to 120 cm, so it offers a convenient position whether you are lying on a bed or sitting on a chair.

Stimulates blood circulation

Infrared light and warmth penetrates deep into your skin, stimulating blood circulation and dilating blood vessels. Furthermore, infrared light speeds up the metabolic processes and the removal of waste substances from the body.

Deep penetrating Infrared warmth

Infrared light has been proven to effectively relieve aches and pains caused by muscular pains and stiff joints. The comfortable warmth created by infrared light penetrates deep into your skin, stimulates blood circulation and warms your muscles. As your muscles are soothed, they automatically loosen up and relax. Because it makes the tissue more pliable, warmth also reduces stiffness and makes joints more flexible.

Specifications

Easy to use

- Adjustability: 0-40 degrees (backwards)
- 2 handgrips: for easy transport and positioning
- On/off switch
- Extendable height: 62-127 cm
- Easily positionable lamphouse (left/right): 90
- Easily positionable lamphouse (up/down): 45

Weight and dimensions

- Product weight: 7.2 kg
- Product dimensions: 29 x 124 x 29 cm

Technical specifications

- Cord length: 300 m
- Power: 650 W
- Frequency: 50–60 Hz

Weight and dimensions

- F-box weight: 9.1 kg
- Qnt. on Euro pallet: 24 pcs
- F-box dimensions (= A-box): 34.5 x 60 x 39 cm
- F-box dimensions: 34.5 x 60 x 39 cm
- F-box weight (= A-box): 9.1 kg

Technical specifications

- Insulation: Class II (double insulation)
- Lifetime of lamps: 500 hour(s)

Half-body treatment

- Treatment area: 60 x 40 cm
- Infrared halogen lamp: 650 W

Safety

- 15 minutes auto shut-off
- IEC certified: Complies to IEC 60601 and 60335

Logistic data

- Country of origin: Germany

Medical appliance

- Medical Device Directive: 2007/47/EC, MDD 93/42/EEC

Logistic data

- CTV code: 884364301000

Effective pain relief

- Deep penetrating warmth

Technical specifications

- Voltage: 220-230 V, Taiwan 110 V
