### **Reduce fussing and discomfort**

- Clinically proven to significantly reduce fussing

### **Highly durable**

- Honey-coloured BPA-Free PES material for extra durability

### **To fit your baby's growing needs**

- Five different teat flow rates are available

# Highlights

## Helps settle your baby

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant baby bottle design affects "infant behaviour". The Philips Avent Classic baby bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs. 74 min,  $p=0.05$ ). This was especially true at night.\*\*

## Unique anti-colic valve

As your baby feeds, the unique skirt on the Avent Nipple flexes to allow air into the bottle instead of your baby's tummy. Like breastfeeding, your baby controls the milk flow.

## Fits your baby's growing needs

Five different teat flow rates are available.

## BPA Free (0% Bisphenol A)

This bottle is made from PES – a BPA-Free material

## Easy to clean

The Philips Avent feeding bottle consists of only three components for ease of cleaning and has a dome cap for hygienic storage and transportation. In a randomised clinical trial the design of the Philips Avent bottle was compared with another leading brand over a 12-month period. The maternal satisfaction in terms of ease of cleaning ( $p=0.0004$ ) and ease of assembly ( $p=0.02$ ) was significantly better with the Philips Avent bottle.

## Honey-coloured PES material

This BPA-Free bottle is made of honey-coloured PES material for extra durability

## Design

**Bottle design:** Easy to assemble, Easy to clean, Easy to hold, Wide neck

## Material
