

Philips
Ultrasonic Humidifier

SCH580/00

A healthy climate for your baby

Helps sustain temperature and humidity level

By creating a comfortable humidity level, the ultrasonic humidifier will help protect your baby against sore throats and irritation to the mucous membrane. This has a positive effect on building up resistance to infection.

Convenience for you and your baby

- No condensation due to ultrasonic vaporation principle
- Adjustable mist output
- Your baby can sleep peacefully due to silent operation

Baby's safety

- Completely safe, cool mist output
- Automatic switch off for the safety of your baby

Reassurance on your baby's well being

- Helps maintain baby-soft skin
- Monitor the ideal humidity and temperature
- Prevents mucous membrane irritation

PHILIPS

Specifications

Weight and dimensions

- Product weight: 3.3 kg

Power

- Mains power: AC 220 - 240 V
- Power consumption: 35 W
- Frequency: 50/60 Hz

Weight and dimensions

- Product dimensions (W x D x H): Ø 240 x 330 mm

Technical specifications

- Noise level: < 35 dB

Technical specifications

- Temperature measurement range: 0-50 °C
- Relative humidity range: 30% - 80% RH
- Evaporation output: 250 ml/h
- Evaporation technology: Ultrasonic
- Water tank volume: 2 L

Highlights

Prevents mucous membrane irritation

By creating a comfortable humidity level, the ultrasonic humidifier helps protect your baby against sore throats and irritation to the mucous membrane. This has a positive effect on building up resistance to infection.

Helps maintain baby-soft skin

Adding moisture to the air helps with keeping your baby's delicate skin healthy and soft.

Hygrometer and thermometer handset

A hygrometer and thermometer handset is included to let you monitor and maintain the ideal humidity and temperature levels of your baby's room. (Ideally, between 16 to 20°C with a relative humidity of 40 to 60%).

Adjustable mist output

Simply set the mist output to suit day-to-day conditions and your baby's needs.

Operates silently

Thanks to the extremely silent operation of the humidifier, your baby can sleep peacefully.

No condensation

A safe and natural system for your home - The cool, healthy mist created by high-frequency ultrasonic waves does not cause condensation or increase room temperature.

Automatically switches off

When the water tank is empty, the appliance automatically switches off.

Completely safe, cool mist output

A safe and natural system for your home - The cool, healthy mist created by high-frequency ultrasonic waves does not cause condensation or increase room temperature and is totally safe for your baby.
