Benefits and features:

- Ultra comfortable and effective
- More milk in less time

Helps you breastfeed longer

- More milk, naturally

Stimulate and express

- Gentle vacuum mimics baby's suckling for steady milk flow
- Soft massage cushions trigger natural let-down, like baby

Highlights

Gentle-draw vacuum

The gentle-draw vacuum mimics baby's suckling to create a steady milk flow that requires less pumping.

More milk, naturally

Expression allows breast milk to be available, even when you can't be there

Soft massage cushions

The patented massage cushions of the Philips Avent breast pump flex in and out, replicating baby's suckling action and are intended to help stimulate a fast natural let down.

More milk in less time

Simultaneous pumping at both breasts is proven to be more efficient THAN A HOSPITAL GRADE PUMP. Philips Avent Twin Electric Breast Pump is a perfect time saver.

Patented Let-down Massage Cushion

Five soft petal massagers gently flex in and out, working in tandem with the reliable vacuum. This is intended to help stimulate a fast, natural milk flow.
