Power

- Power supply: 220-240 V

Accessories

- User manual

Convenience

- Automatic shut-off
- Fits all bottles: All baby bottles & jar types

Convenience

- Automatic audio signal routing

Highlights

Temperature control system

The latest heating technology incorporates a PTC heating element and two sensors ensures the water in the beaker quickly reaches the ideal temperature and maintains it at a safe level that won't burn your baby's mouth with food or milk that is too hot.

Overheat protection

To avoid the danger of accidentally burning your baby's mouth, the automatic switch off ensures the food does not get too hot.

PTC heating element

To avoid the danger of accidentally burning your baby's mouth, the automatic switch off ensures the food does not get too hot.

Disinfects completely

Protect your newborn baby from any harmful household bacteria or germs by disinfecting her bottles, teats, pacifiers and small plastic toys.

Holds 4-6 bottles

Convenient use of the sterilizer means having the disinfected bottles ready when you need them. This means fitting all bottles needed for a day's feeding into the sterilizer in one go.

No chemicals needed

Chemical residues in baby's food are a nightmare to think about. Therefore, sterilization is done by using very hot steam.

Sterilizes small plastic toys

By disinfecting small plastic toys, you can protect your newborn baby from any harmful household bacteria or germs while discovering and playing with her toys.

Preserves all vitamins

When preparing baby's food, keeping all vitamins is very important for your baby's healthy growth. Steaming vegetables or fruit is the optimum way of making sure these healthy vitamins are perfectly maintained.

De-frosting baby food

Conveniently defrost any babyfood which you prepared in advance and put into the freezer. This means you can have healthy baby food ready whenever your baby needs it.

Perfect temperature in 5 minutes

This bottlewarmer reliably heats bottles and jars to exactly the right temperature within three minutes to make sure your hungry baby doesn't need to wait long for her food. And no worries about burning baby's mouth either, thanks to the innovative heating technology.

Steams all vegies

Once your baby starts eating solid foods, you can prepare healthy steamed vegetables and fruits while preserving the vitamins and nutritional goodness.

Fits all bottle and jar types

The product is designed in such a way that all kind of sizes and shapes of bottles and jars fit in.
