Highlights

Gentle-draw vacuum

The gentle-draw vacuum mimics baby's suckling to create a steady milk flow that requires less pumping.

Patented Let-down Massage Cushion

Five, soft petal massagers gently flex in and out working in tandem with the reliable vacuum. This is intended to help stimulate a fast, natural milk flow.

Personal pump parts/accessory

This Twin expression kit's funnels are only compatible with the Twin electric breast pump, due to different valves and a closed diaphragm. The Twin expression kit will not fit the manual or single electric breast pump

Soft massage cushions

Patented massage cushions of the Philips Avent breast pump flex in and out, replicating baby's suckling action and is intended to help stimulate a fast natural let down.
