Full solution for face and body

- Full solution for face and body with 3 smart attachments
- Suitable for most skin tones and hair colors

Personalized IPL hair removal treatment

- Gentle and comfortable with SenseIQ
- Optimize your routine with the Philips Lumea IPL app

Highlights

2x a month for fast results

Get started with the initial phase of 4 treatments only every 2 weeks — that's half as many treatments as other brands. Then touch up monthly to maintain the results.

SenseIQ technology

Lumea 9000 Series has five easily adjustable light settings. Our SmartSkin sensor reads your skin tone and helps you find the most comfortable setting. Intelligent attachments adapt treatment for each body area.

Cordless if you want

Philips Lumea is designed to be convenient and easy to use. Use the device corded for a fast treatment on large body areas, like your legs, or go with the cordless battery mode to treat hard-to-reach body areas with precision.

3 smart attachments

Specially designed attachments perfectly fit the curves of your body and trigger the most effective programs for each body area when they are connected. Face: Flat design and small window with UV filter. Body: Curved inward with a large window. Precision: Curved outward for hard-to-reach areas.

Developed with dermatologists

As a leader in health technology, Philips developed Lumea IPL in consultation with dermatologists, for easy and effective use in the safety of your home. Derived from technology used in professional salons, Lumea IPL offers gentle treatment, even on sensitive areas.

Philips Lumea IPL app

Our free coaching app helps you plan and stick to your treatment schedule, then takes you through each session step by step. Downloaded by more than 2.1 million users.

For most skin and hair types

IPL needs contrast between the pigment in the hair color and the pigment in the skin tone, therefore works on naturally dark blonde, brown and black hair and on skin tones from fair to dark brown (I-V).
