Highlights

Natural latch on

The wide breast shaped teat promotes a natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Soft and smooth silicone

Bite resistant and smooth teat designed for growing baby's changing needs.

Flexible, anti-collapse design

Petals and ridges inside the teat allow flexibility without collapse, for an uninterrupted feed.

Anti-colic valve

Anti-colic valve designed to keep air away from your baby's tummy, to help reduce colic and discomfort.

Choosing the right teat

The Philips Avent Natural range offers different teat softness and increasing flow rates for every development stage of your baby.
