- One size soft and adaptive silicone cushion
- Express without leaning forward

#### **Quick expressing, more milk in less time\***

- Natural motion technology for a quick milk flow\*

#### **Rechargeable battery and timer display**

- Rechargeable battery for pumping on the go
- Display to keep track of time

# Highlights

## Quick milk flow\*

Express more milk in less time\* with a cushion that stimulates the breast to express milk just like baby. It seamlessly adjusts from stimulation mode to expression mode<sup>1</sup>, and applies just the right amount of nipple stimulation and suction for maximum milk flow. Based on milk flow initiation time (time to Milk Ejection Reflex - MER) results.\*

## Adapts to your nipple

One size fits all. Because we all come in different shapes and sizes, the silicone cushion gently flexes and adapts to fit your nipple. It fits 99.98% of nipple sizes\* (up to 30mm).

## Sit comfortably

Feel relaxed as you express thanks to a design that lets you sit upright rather than having to lean forward. No need to lean forward, clinically proven comfortable expressing position\*. Based on product clinical trial results with 20 participants (2019); 90% of participants find the expressing position comfortable (single electric); 95% of participants find the expressing position comfortable double electric).

## Personalize to your needs

Finely tune every session to your needs with a wide range of stimulation and expression settings. Our breast pump offers 8 stimulation and 16 expression levels for a personalized experience.

## Express anywhere discreetly

Express whenever and wherever you like thanks to our quiet motor with a slimline design.

## Use easily on the go

Express on-the-go without having to worry about a power supply. Our rechargeable battery comes with a micro-USB adapter and lasts up to 3 sessions on a single full charge.

## Clean and setup easily

Our closed expression system means milk stays out of tubing so there's less to clean. Fewer parts also make it a breeze to put back together again.

## Save your favourite settings

Know what you like? The breast pump automatically remembers your last settings, so all you need to do is sit down and press start.

## Track your pumping time

Track how long you express on each breast, and your total pumping time with the digital timer display.

## Pause whenever you like

If you need to adjust or take a break, the start/pause button is always at your finger tips.

# Specifications

## Material

**Bottle:** BPA free\*, Polypropylene

**Teat:** BPA free\*, Silicone

**Breast pump:** BPA-free\* (food contact parts only)

## Ease of use

**Breast pump use:** Easy cleaning & assembly, quiet motor, memory function, rechargeable battery, motor display
