# Express, Store and Feed Set

Natural motion technology for a quicker milk flow\*

The ideal set for mums who plan to express; with all you need to express and store your breast milk and feed your baby. Our baby bottles with an ultra-soft teat closely resemble the breast, making it easy to combine bottle and breast feeding.

### Easy to combine breast and bottle feeding

- Anti-colic valve designed to reduce colic and discomfort
- Natural latch-on due to the wide breast shaped teat
- Ultra soft teat designed to mimic the feel of the breast

### Express

- One-size soft and adaptive silicone cushion
- Natural motion technology for a quick milk flow\*
- Personalised experience, 8 + 16 setting levels
- Express without leaning forward
- Quiet motor for a discreet experience anywhere (corded use)

### Store and transport securely

- Convenient adapters included
- For use in fridge and freezer
- For safe storage and transport

# Highlights

## Quick milk flow\*

Express more milk in less time\* with a cushion that stimulates the breast to express milk just like baby. It seamlessly adjusts from stimulation mode to expression mode and applies just the right amount of teat stimulation and suction for maximum milk flow. Based on milk flow initiation time (time to Milk Ejection Reflex — MER) results.\*

## Adapts to your nipple

One size fits all. Because we all come in different shapes and sizes, the silicone cushion gently flexes and adapts to fit your nipple. It fits 99.98% of nipple sizes\* (up to 30 mm).

## Sit comfortably

Feel relaxed as you express thanks to a design that lets you sit upright rather than having to

lean forward. No need to lean forward, a clinically proven comfortable expressing position\*. Based on product clinical trial results with 20 participants (2019); 90% of participants find the expressing position comfortable (single electric); 95% of participants find the expressing position comfortable (double electric).

## Personalise to your needs

Finely tune every session to your needs with a wide range of stimulation and expression settings. Our breast pump offers 8 stimulation and 16 expression levels for a personalised experience.

## Express anywhere discreetly

Express whenever and wherever you like thanks to our quiet motor with a slimline design. Corded use only.

## Leak-proof lid

Philips Avent storage cups have a lid that creates a secure seal for safe storage and transport.

## Convenient adapters included

For expressing and feeding.

## For use in fridge and freezer

For maximum flexibility.

# Specifications

## Material

- Bottle: BPA-free\*, Polypropylene
- Teat: BPA-free\*, Silicone
- Breast pump: BPA free\* (food contact parts only)

## What is included

- Milk storage cup adapter: 1 pcs
