Odorless and taste-free

- User-friendly silicone nipples

PHILIPS
AVENT

Highlights

Shaped nipple

The nipple is shaped to let baby's tongue remain in natural position.

Snap on hygienic cap

To keep sterilized nipples hygienic.

Unique "wings"

Advanced orthodontic teat with unique wings that minimizes pressure on gums and developing teeth. The wings make the teat wider so that the pressure that is caused by baby's suckling is distributed more evenly resulting in less pressure per tooth.

User-friendly silicone nipples

The Philips Avent silicone nipple is taste and odor-free so it's more likely to be accepted by your baby. The silicone is smooth, transparent, easy to clean and it doesn't get sticky. The nipple is strong, long-lasting and won't become mis-shapen or discolored over time.

Can be sterilized

Can be sterilized

Dishwasher Safe

Dishwasher Safe
