- Soft massage cushion with massaging petals
- Power cushion for extra suction

#### Quiet pump for discreet expression, anytime

- Designed to let you express quietly

#### Clinically proven less leaning forward\*

- More comfortable pumping position due to unique design

# Highlights

## Relaxing position

The breast pump has a unique design, so your milk flows directly from your breast into the bottle or container, even when you are sitting up straight. This means you can sit more comfortably when pumping: no need for you to lean forward to make sure all your milk ends up in the bottle. Sitting comfortably and being relaxed when pumping, helps your milk to flow more easily.

## Simple settings to choose from

When switched on, the pump automatically starts in gentle stimulation mode to get your milk flowing. Then choose from 3 pumping settings to make milk flow most comfortable for you.

## Soft massage cushion

Our massage cushion has a soft velvety texture that gives a warm feel to the skin for comfortable, gentle stimulation of your milk

flow. The iconic petal cushion is designed to mimic baby suckling, intended to gently help stimulate let down.

## Soft power cushion

Choose the power cushion for the moments you need a stronger suction.

## No milk spillage in the tubes

No milk spillage in the tubes.

## Easy set up, express and clean

Few separate parts and intuitive design. Easily express milk for your baby, anytime.

## Includes our Natural bottle

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

## Quiet pump

Designed for discreet expression.
