Patient Care Reporting

| Part number | Description |
|-------------|--|
| 867126 | <p>Philips Emergency Care Informatics Suite Patient Care Reporting enables the user to create an Administration account in which they can manage patient care reporting as a records management company and manage the service level password reset of their HeartStart Intrepid device.</p> <p><i>Requires a compatible monitor/defibrillator or business unit approval. To access the Patient Care Reporting function, Philips Emergency Care Informatics Suite Device Data is required.</i></p> |

Event Review

| Part number | Description |
|-------------|--|
| 860443 | <p>Philips Emergency Care Event Review enables the transfer of the clinical data from the device to Emergency Care Informatics Suite, where it is stored in a Software as a Service (SaaS) repository. A dashboard allows the user to see uploaded data and to view cases individually in detail, such as 12-leads and vitals. Reports can be generated as a PDF.</p> <p>This part must be ordered with an option from A-E or G. Additional options can be ordered when an option term expires. Customer must sign an SaaS contract with Philips per privacy guidelines. An option for additional storage can be combined with any option.</p> |
