

# PHILIPS

Automated External  
Defibrillator

HeartStart OnSite

## Philips HeartStart OnSite

Designed for the ordinary person in the extraordinary moment, Philips HeartStart OnSite AED should be by your side to guide you through a cardiac emergency with a simple step-by-step process.

- With more than two million AEDs sold, Philips is the trusted worldwide leader in emergency care resuscitation.<sup>1</sup>
- Philips AEDs are one of the most comprehensive daily self-testing devices available.
- Philips AEDs offer expert, adaptive guidance to enable proper use for every situation.

# Easy access to lifesaving support should always be close at hand

## Ready to act when you're ready to go

Designed for the ordinary person in the extraordinary moment, Philips HeartStart OnSite AEDs are ready to act when you're ready to go. They allow users to treat the most common cause of sudden cardiac arrest, wherever it happens.

## Treat with confidence

With access to the right equipment and support, you can help save a life. The Philips HeartStart OnSite AEDs guide you through the process of treating a suspected victim of sudden cardiac arrest. Using clear, calm voice instructions, they guide you through each step of a rescue, including defibrillation and CPR guidance.

## Easy as 1-2-3

Sensors in the device detect user actions and provide adaptive step-by-step voice instructions and CPR guidance. The system won't announce the next step until you are ready. Prompts are repeated and rephrased and include additional instruction to aid understanding.
