Highlights

Relaxing expression position

The breast pump has a unique design, so your milk flows directly from your breast into the bottle or container, even when you are sitting up straight. This means you can sit comfortably when pumping: no need for you to lean forward to make sure all your milk ends up in the bottle. Sitting comfortably and being relaxed when pumping, helps your milk to flow more easily.

Simple settings to choose from

When switched on, the pump automatically starts in gentle stimulation mode to get your milk flowing. Then choose from 3 pumping settings to make milk flow comfortable for you.

Soft massage cushion

Our massage cushion has a soft velvety texture that gives a warm feel to the skin for

comfortable, gentle stimulation of your milk flow. The iconic petal cushion is designed to mimic baby suckling, intended to gently help stimulate let down.

More milk in less time

Reduce expression time with double pumping compared to single pumping.

No milk spillage in the tubes

Designed for hygienic expression thanks to the closed system.

Easy set up, express and clean

Few separate parts and intuitive design. Easily express milk for your baby, anytime.

Includes our Natural bottle

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Quiet pump

Designed for discreet expression, anytime.

Double electric breast pump

Express more milk in less time Includes soft massage cushion, Travel bag and 2 bottles
