#### Pure glass

- Heat resistance
- Pharmaceutical grade glass

# Highlights

## Natural latch on

The wide breast shaped nipple promotes a natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

## Flexible spiral design

Flexible spiral design, combined with our unique comfort petals to create a flexible nipple, allowing for a more natural feed without nipple collapse.

## Anti-colic valve technology

Our unique anti-colic valve technology was designed to reduce colic and discomfort, by venting air away from your baby's tummy.

## Ultra soft nipple

The nipple has an ultra soft texture, designed to mimic the feel of the breast.

## Heat resistance

The Natural glass bottle is heat and thermal shock resistant. It can therefore be safely stored in the fridge, warmed, and is also suitable for sterilization.

## Protective bottle sleeve

The insulating bottle sleeve, allows you to keep the feed at the right temperature and to protect your glass bottle at the same time.

## Silicone soothie pacifier

The silicone soothie helps calm your baby. It is used by medical professionals to calm newborns.

## Pharmaceutical grade glass

Premium quality borosilicate glass to ensure the highest quality for ultimate purity.
