# Highlights

## Bottle and nipple brush

Specially curved brush head and molded handle-tip reach the corners of all types of bottles, nipples and feeding equipment for thorough cleaning.

## Bottles clinically proven

Unique anti-colic system consists of the Philips Avent nipple and adaptor ring allowing air to flow into the bottle instead of your baby's tummy for better digestion.\*

## Easy latch on

Unique valve on the nipple flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby to minimize overeating and spit-up, burping and gas

## Holds enough formula for three 260 ml/ 9 oz feeds

The Philips Avent milk powder dispenser holds 3 pre-measured doses of milk powder - ideal for travel

## Orthodontic pacifier

The orthodontic, collapsible nipple of the translucent pacifier respects the natural development of baby's palate, teeth and gums. All our pacifiers are made from silicone and are taste and odour-free.

## Unique anti-colic system

As your baby feeds, the unique valve on the nipple flexes to allow air into the bottle instead of your baby's tummy.\*

## This product is BPA-Free

BPA is Bisphenol-A. This product uses Polyether Sulfone (PES), which is BPA-Free and has a natural honey-colored tint.
