- Quiet motor for a discreet experience anywhere
- Personalized experience, 8 + 16 setting levels
- Display to keep track of time
- Express without leaning forward

Quick expressing, more milk in less time*

- Natural motion technology for a quick milk flow*
- Soft and adaptive silicone cushion

Stay mobile and travel light

- Pumping belt, travel bag and pouch
- Compact pump design with rechargeable battery

PHILIPS
AVENT

Highlights

Quick milk flow*

Express more milk in less time* with a cushion that stimulates the breast to express milk just like baby. It seamlessly adjusts from stimulation mode to expression mode¹, and applies just the right amount of nipple stimulation and suction for maximum milk flow. Based on milk flow initiation time (time to Milk Ejection Reflex - MER) results.*

Adapts to your nipple

Because we all come in different shapes and sizes, the soft silicone cushion gently flexes and

adapts to fit both size and shape of the breast. It fits nipple sizes of up to 30mm/1.18 inches.

Stay mobile and travel light

Use the tailor-made pumping belt, travel bag and pouch to take your pump with you as you go about your day.

Use easily on the go

New rechargeable and compact design. Express on-the-go without having to worry about a power supply. Our rechargeable battery comes

with a micro-USB adapter and lasts up to 3 sessions on a single full charge

Personalize to your needs

Finely tune every session to your needs with a wide range of stimulation and expression settings. Our breast pump offers 8 stimulation and 16 expression levels for a personalized experience.

Express anywhere discreetly

Express whenever and wherever you like thanks to our quiet motor with a slimline design.
