## Fast and incredibly convenient

Natural motion technology for quick milk flow\*

Inspired by baby's unique combination of suckling and massage, Natural Motion technology powerfully combines suction and nipple stimulation for quick letdown and milk flow.

### Personalized and easy to use

- Minimal parts and intuitive setup
- Pause/Play function
- Memory function
- Quiet motor for a discreet experience anywhere
- Personalized experience, 8 + 16 setting levels
- Display to keep track of time
- Express without leaning forward

### Quick expressing, more milk in less time\*

- Natural motion technology for a quick milk flow\*
- Soft and adaptive silicone cushion

### Stay mobile and travel light

- Pumping belt, travel bag and pouch
- Compact pump design with rechargeable battery

# Highlights

## Quick milk flow\*

Express more milk in less time\* with a cushion that stimulates the breast to express milk just like baby. It seamlessly adjusts from stimulation mode to expression mode, and applies just the right amount of nipple stimulation and suction for maximum milk flow. Based on milk flow initiation time (time to Milk Ejection Reflex - MER) results.\*

## Adapts to your nipple

Because we all come in different shapes and sizes, the soft silicone cushion gently flexes and adapts to fit both size and shape of the breast. It fits nipple sizes of up to 30mm/1.18 inches.

## Stay mobile and travel light

Use the tailor-made pumping belt, travel bag and pouch to take your pump with you as you go about your day.

## Use easily on the go

New rechargeable and compact design. Express on-the-go without having to worry about a power supply. Our rechargeable battery comes with a micro-USB adapter and lasts up to 3 sessions on a single full charge

## Personalize to your needs

Finely tune every session to your needs with a wide range of stimulation and expression settings. Our breast pump offers 8 stimulation and 16 expression levels for a personalized experience.

## Express anywhere discreetly

Express whenever and wherever you like thanks to our quiet motor with a slimline design.

## Clean and setup easily

Our closed expression system means milk stays out of tubing so there's less to clean. Fewer parts also make it a breeze to put back together again.

## Save your favourite settings

Know what you like? The breast pump automatically remembers your last settings, so all you need to do is sit down and press start.

## Pause whenever you like

If you need to adjust or take a break, the start/pause button is always at your finger tips.

## Track your pumping time

Track how long you express on each breast, and your total pumping time with the digital timer display.

# Specifications

## Power

Mains voltage: 100 - 240 V

## Technical specifications

Battery type: Li-Ion 3.6 V 2600 mAh (non-replaceable)

Charging time: up to 4 hours (full charge)

Operating time: up to 3 pumping sessions

## Material

Bottle: BPA free\*, Polypropylene

Nipple: BPA free\*, Silicone

Breast pump: BPA-free\* (food contact parts only)

## What is included

Travel bag: 1 pcs

4oz Bottle with Om+ nipple: 2 pcs

Disposable breast pads: 2 pcs

Expression kit: 2 pcs

Insulation pouch: 1 pcs

Micro-USB adapter: 1 pcs

Motor unit (Rechargeable): 1 pcs

Sealing disc: 2 pcs

Belt: 1 pcs

## Ease of use

**Breast pump use:** Easy cleaning & assembly, quiet motor, memory function, rechargeable battery, motor display, travel bag, pouch & belt

## Functions

**No leaning forward:** Sit in a comfortable position

**Settings:** 16 expression levels, 8 stimulation levels

**Soft & adaptive cushion:** Gentle stimulation

\* Based on milk flow initiation time (time to Milk Ejection Reflex - MER) results from clinical trial with 20 participants (Netherlands, 2019) compared to time to MER results for other Philips predecessor pump technology from Feasibility study with 9 participants (Netherlands, 2018)
