The natural way to bottle feed

Extra soft and flexible nipple

Our new nipple, with skin soft material and flexible spiral design, more closely resembles the breast. The comfort petals and natural nipple shape allows natural latch on and makes it easy to combine breast and bottle feeding.

Easy to combine breast and bottle feeding

- Natural latch on due to the wide breast shaped nipple
- Skin-soft teat designed for a natural feed

Vents air away from your baby's tummy

- Unique anti-colic valve technology

A comfortable and contented feed for your baby

- Flexible spiral design combined with comfort petals
- Slower flow nipple for your newborn baby

Highlights

Natural latch on

The wide breast shaped nipple promotes a natural latch on similar to the breast. Designed to give a more comfortable and contented feed for your baby.

Skin-soft teat

The skin-soft nipple material closely resembles the feeling of the breast, making it easy for your baby to combine breast and bottle feeding.

Flexible spiral teat design

The spiral design combined with our comfort petals inside the nipple increases softness and the flexibility allowing natural tongue movement without nipple collapse. Designed to give your baby a more comfortable and content feeding.

Anti-colic valve technology

Reduces fussing and discomfort by venting air away from baby's tummy.

Slower flow nipple

A smaller hole size delivers a more controlled flow rate for slower drinking babies. The Natural First nipple is the ideal flow rate to start bottle feeding your newborn baby.

Specifications
