Highlights

Natural latch on

The wide breast shaped teat promotes a natural latch-on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Anti-colic valve

Anti-colic valve designed to keep air away from your baby's tummy, to help reduce colic and discomfort.

This bottle is BPA free*

The Philips Avent Natural bottle is made of BPA-free* material (polypropylene).

Ultra soft teat

Our teat with an ultra-soft texture is designed to mimic the natural movement and feel of the breast. As your baby grows, the nipple that's best for them will change too. For older babies, our nipples have a bite-resistant smooth material, while keeping the wide shape that promotes a natural latch on.

Choosing the right teat

The Philips Avent Natural range offers different teat softness and increasing flow rates for each of your baby's development stages.

Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

Flexible design

Flexible design, combined with our unique comfort petals to create a flexible teat, allowing for a more natural feed without teat collapse.

Ergonomic shape

Due to its unique shape, the bottle is easy to hold and grip in any direction for maximum comfort, even for baby's tiny hands.

Curved brush head

Specially curved brush head and moulded handle-tip reach the corners of all wide neck bottles, teats and feeding products for thorough cleaning.

Compatibility across the range

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it!
