Natural feeding bottles

- Advanced anti-colic system with innovative twin valve
- Natural latch on due to the wide breast shaped nipple
- Unique Petals for a soft, flexible nipple without collapse

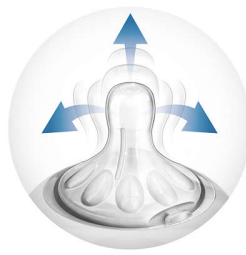

Highlights

Advanced anti-colic valve

Innovative twin valve designed to reduce colic and discomfort by venting air into the bottle and not baby's tummy.

Unique comfort petals

Petals inside the nipple increase softness and flexibility without nipple collapse. Your baby will enjoy a more comfortable and contented feed.

Soothie pacifier 0-3 months

Used by medical professionals to calm newborns. Hospital grade silicone one piece construction, highly durable.

Natural latch on

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Curved brush head

Specially curved brush head and molded handle-tip reach the corners of all wide neck bottles, nipples and feeding products for thorough cleaning.

Sealing discs

Used to convert all Philips Avent feeding bottles to breast milk and food storage containers.

First and Newborn flow nipples

Our nipples help to make bottle feeding more natural for your baby and you. The nipples feature an innovative petal design for natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding. Nipples with different flow rates are included to accommodate the growth of your baby
