 Product Picture

The natural way to start bottle feeding

A handy collection including 5 Natural baby bottles (3x 4oz and 2x 9oz), a bottle warmer, 1 Soothie, a formula dispenser and a bottle brush. The bottle warmer helps preserve the nutrients and vitamins by using gentle warming technology.

Easy to combine breast and bottle feeding

- Natural latch on due to the wide breast shaped nipple

Vents air away from your baby's tummy

- Advanced anti-colic system with innovative twin valve

Other benefits

- Orthodontic pacifier
- Unique Petals for a soft, flexible nipple without collapse
- Automatic keep warm and shut off functions
- Gentle defrost setting for baby bottles
- Gentle warming technology
- Intelligent progress indicator
- Sensor tracking for no overheating or hot spots
- Compatible with the Philips Avent Natural range

Highlights

Advanced anti-colic valve

Innovative twin valve designed to reduce colic and discomfort by venting air into the bottle and not baby's tummy.

Natural latch on

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Unique comfort petals

Petals inside the nipple increase softness and flexibility without nipple collapse. Your baby will enjoy a more comfortable and contented feed.

Compatibility across the range

The Philips Avent Natural bottle range is compatible with the Philips Avent breast pumps and sippy cup range (excluding the glass bottle and My First Big Kid Cup).

Gentle warming technology

This bottle warmer uses gentle warming technology. This circulates the milk, warming it gently and evenly and preventing hot spots. No hotspots means you can always be confident that your baby is enjoying perfectly warmed milk, safely.

No overheating or hot spots

The integrated sensor tracks and controls the milk temperature to ensure safe warming at all times with no hot spots or overheating

Gentle defrost setting

The bottle warmer features a handy defrost setting. Safer than defrosting in a microwave and more convenient than using water, simply select the setting to defrost frozen milk or baby food to liquid.

Auto keep warm and shut off

The baby bottle warmer features automatic keep warm and shut off functions to keep the milk at exactly the right temperature for 20 minutes before switching itself off.

Intelligent progress indicator

The bottle warmer features an clever light progress indicator to let you know when the milk is ready in an easy way.

Orthodontic pacifier

The orthodontic, collapsible nipple of the translucent pacifier respects the natural development of baby's palate, teeth and gums. All our pacifiers are made from silicone and are taste and odour-free.
