Soft and flexible teat

Designed for a comfortable feed

Our Natural bottle with an ultra soft teat more closely resembles the breast. The wide breast-shaped teat with flexible spiral design and comfort petals allows natural latch on and makes it easy to combine breast and bottle feeding.

Easy to combine breast and bottle feeding

- Natural latch on due to the wide breast shaped teat
- Skin-soft teat designed for a natural feed

Vents air away from your baby's tummy

- Unique anti-colic valve technology

Other benefits

- Teats with different flow rates available
- Bottle brush with curved brush head for easy cleaning
- Simple to use and clean, quick and easy assembly
- Ergonomic shape for maximum comfort
- Compatible with the Philips Avent Natural range
- Soother with soft & flexible shield for fewer skin marks

A comfortable and contented feed for your baby

- Flexible spiral design combined with comfort petals

Highlights

Natural latch on

The wide breast shaped teat promotes a natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Anti-colic valve technology

Our unique anti-colic valve technology is designed to reduce colic and discomfort, by venting air into the bottle instead of your baby's tummy.

Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

Skin-soft teat

Soft and wide base teat for secure latch on.

Choosing the right teat

The Philips Avent Natural range offers different teat softness and increasing flow rates for every development stage of your baby.

ultra soft soother

Delicate skin needs extra care. Our ultra soft soother with FlexiFit technology lets this shield follow the natural curves of your baby's face for a comfortable fit. Your little one will experience fewer skin marks and less irritation.

Flexible spiral design

Flexible spiral design, combined with our unique comfort petals to create a flexible teat, allowing for a more natural feed without teat collapse.

Ergonomic shape

Due to the unique shape, the bottle is easy to hold and grip in any direction for maximum comfort, even for baby's tiny hands.

Curved brush head

Specially curved brush head and molded handle-tip reach the corners of all wide neck bottles, nipples and feeding products for thorough cleaning.

Compatibility across the range

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it!

Specifications

* 0% BPA, following EU regulation 10/2011

* What colic is, and how it affects babies? Colic is caused
in part by swallowing air while feeding, which creates
discomfort in a baby's digestive system. Symptoms
include crying and fussing.
