## Soft and flexible teat

### Designed for a comfortable feed

Our Natural bottle with an ultra soft teat more closely resembles the breast. The wide breast-shaped teat with flexible spiral design and comfort petals allows natural latch on and makes it easy to combine breast and bottle feeding.

#### **Easy to combine breast and bottle feeding**

- Natural latch on due to the wide breast shaped teat
- Skin-soft teat designed for a natural feed

#### **Vents air away from your baby's tummy**

- Unique anti-colic valve technology

#### **Other benefits**

- Teats with different flow rates available
- Bottle brush with curved brush head for easy cleaning
- Simple to use and clean, quick and easy assembly
- Ergonomic shape for maximum comfort
- Compatible with the Philips Avent Natural range
- Soother with soft & flexible shield for fewer skin marks

#### **A comfortable and contented feed for your baby**

- Flexible spiral design combined with comfort petals

# Highlights

## Natural latch on

The wide breast shaped teat promotes a natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

## Anti-colic valve technology

Our unique anti-colic valve technology is designed to reduce colic and discomfort, by venting air into the bottle instead of your baby's tummy.

## Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

## Skin-soft teat

Soft and wide base teat for secure latch on.

## Choosing the right teat

The Philips Avent Natural range offers different teat softness and increasing flow rates for every development stage of your baby.

## ultra soft soother

Delicate skin needs extra care. Our ultra soft soother with FlexiFit technology lets this shield follow the natural curves of your baby's face for a comfortable fit. Your little one will experience fewer skin marks and less irritation.

## Flexible spiral design

Flexible spiral design, combined with our unique comfort petals to create a flexible teat, allowing for a more natural feed without teat collapse.

## Ergonomic shape

Due to the unique shape, the bottle is easy to hold and grip in any direction for maximum comfort, even for baby's tiny hands.

## Curved brush head

Specially curved brush head and molded handle-tip reach the corners of all wide neck bottles, nipples and feeding products for thorough cleaning.

## Compatibility across the range

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it!

# Specifications
