The natural way to bottle feed

Soft and anti-collapse nipple design

Our new soft and anti-collapse ribbed nipple is designed for growing babies. The comfort petals and natural nipple shape allows natural latch on and makes it easy to combine breast and bottle feeding.

Easy to combine breast and bottle feeding

- Natural latch on due to the wide breast shaped nipple
- Soft and smooth silicone for your baby's changing needs

Vents air away from your baby's tummy

- Unique anti-colic valve technology

Other benefits

- Designed for your baby's changing needs

A comfortable and contented feed for your baby

- Flexible, anti-collapse ribbed teat design

Ideal for thicker liquids - 3M+

- Adjust the flow rate to baby's convenience

Highlights

Specifications

Natural latch on

The wide breast shaped nipple promotes a natural latch on similar to the breast. Designed to give a more comfortable and contented feed for your baby.

Soft and smooth silicone

The soft and smooth bite resistant silicone, is developed for your baby's changing needs.

Flexible, anti-collapse design

The petals inside the teat and the ridge design, increase the teat softness and flexibility, guaranteeing no teat collapse for growing babies.

Anti-colic valve technology

Reduces fussing and discomfort by venting air away from baby's tummy.

Baby's changing needs

The Philips Avent Natural bottle is available in 4 sizes and 7 different nipples for every development stage of your baby. With different nipple softness, flexibility and design and with increasing flow rates and bottle sizes that keep up with your baby's growth and development.

Adjust the flow rate

With the variable flow nipple, you can adjust the flow rate according to liquid's thickness and suit baby's feeding rhythm perfectly. We recommend to use this nipple for thicker liquids such as AR (thickened) milk, milk mixed with baby rice, milk mixed with baby food, soup... Once baby is ready for an even faster flow, we recommend to use the Philips Avent Thick Feed nipple.
