# Highlights

## Natural latch on

The wide breast shaped teat promotes a natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

## Soft and smooth silicone

Bite resistant and smooth teat designed for growing baby's changing needs.

## Flexible, anti-collapse design

Petals and ridges inside the teat allow flexibility without collapse, for an uninterrupted feed.

## Anti-colic valve

Anti-colic valve designed to keep air away from your baby's tummy, to help reduce colic and discomfort.

## Choosing the right teat

The Philips Avent Natural range offers different teat softness and increasing flow rates for every development stage of your baby.
