Introduction

Congratulations on your purchase and welcome to Philips!
To fully benefit from the support that Philips offers, register your product at www.philips.com/welcome.

General description (Fig. 1)

- Spray nozzle
- Cap of filling opening
- Steam control
 - CALC CLEAN** = Calc-Clean function
 - = dry ironing
 - ECO** = optimal steam
 - = maximum steam
 - = turbo steam
- Steam boost button (specific types only)
- Spray button
- Temperature dial
- Temperature light (specific types only: with safety-auto off indication)
- Mains cord
- Type plate
- Water tank with MAX water level indication
- Soleplate

Important

Read this user manual carefully before you use the appliance and save it for future reference.

- Danger**
- Never immerse the iron in water.

- Warning**
- Check if the voltage indicated on the appliance corresponds to the local mains voltage before you connect the appliance.
 - Do not use the appliance if the plug, the mains cord or the appliance itself shows visible damage, or if the appliance has been dropped or leaks.
 - If the mains cord is damaged, you must have it replaced by Philips, a service centre authorised by Philips or similarly qualified persons in order to avoid a hazard.
 - Never leave the appliance unattended when it is connected to the mains.
 - Always unplug the appliance from the socket outlet before you fill the water tank with water.
 - This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
 - Children should be supervised to ensure that they do not play with the appliance.
 - Keep the appliance and its mains cord out of reach of children.
 - Always place and use the iron on a stable, level and horizontal surface.
 - Do not let the mains cord come into contact with the hot soleplate of the iron.
 - CAUTION: Hot surface** (Fig. 2)
- Surfaces are liable to get hot during use (for irons with 'hot' symbol marked on the appliance).

- Caution**
- Only connect the appliance to an earthed wall socket.
 - Check the mains cord regularly for possible damage.
 - Fully unwind the mains cord before you plug it in the wall socket.
 - The soleplate of the iron can become extremely hot and may cause burns if touched.
 - Descale the iron regularly according to the instructions in chapter 'Cleaning and maintenance' in the user manual.
 - When you have finished ironing, when you clean the appliance, when you fill or empty the water tank and also when you leave the iron even for a short while: set the steam control to the 'dry ironing' position, put the iron on its heel and remove the mains plug from the wall socket.
 - Do not put perfume, vinegar, starch, descaling agents, ironing aids or other chemicals in the water tank.
 - This appliance is intended for household use only.

Electromagnetic fields (EMF)

This Philips appliance complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user manual, the appliance is safe to use based on scientific evidence available today.

Using the appliance

Filling the water tank

Note: Your appliance has been designed to be used with tap water. If you live in an area with very hard water, fast scale build-up may occur. In this case, it is recommended to mix 50% distilled water and 50% tap water to prolong the lifetime of your appliance.

Note: Do not put perfume, vinegar, starch, descaling agents, ironing aids, chemically descaled water or other chemicals in the water tank.

- Set the steam control to position (dry ironing). (Fig. 3)
- Fill the water tank up to the MAX indication (Fig. 4).
- Close the cap of the filling opening.

Selecting temperature and steam setting

Table 1				
Fabric type	Temperature setting	Steam setting	Steam boost	Spray
Linen	MAX		Yes	Yes
Cotton	●●●		Yes	Yes
Wool	●●	ECO	No	Yes
Silk	●		No	No
Synthetic fabrics (e.g. acrylic, nylon, polyamide, polyester).	●		No	No

Note: As indicated in the table above, do not use steam or steam boost at a low temperature, otherwise hot water may leak from the iron.

- Consult table 1 to set the temperature dial to the appropriate setting for your garment (Fig. 5).
- Put the iron on its heel and plug it in. The temperature light goes on to indicate that the iron is heating up (Fig. 6).
- When the temperature light goes out, the iron has reached the correct temperature.
- Consult table 1 to select a steam setting that corresponds to the temperature you have set (Fig. 7).

Note: To use turbo steam , keep the steam control pressed to the turbo steam position continuously.

Features

- Spray function**
- Press the spray button to moisten the article to be ironed. This helps remove stubborn creases (Fig. 8).

Steam boost function (specific types only)

- Press and release the steam boost button for a powerful boost of steam to remove stubborn creases (Fig. 9).

Vertical steam (specific types only)

- You can use the steam boost function when you hold the iron in vertical position for removing creases from hanging clothes, curtains etc (Fig. 10).

Safety auto-off function (specific types only)

- The iron switches off automatically if it has not been moved for 30 seconds in horizontal position or 8 minutes in vertical position. The auto-off light starts flashing (Fig. 11).
- To let the iron heat up again, pick up the iron or move it slightly until the auto-off light goes out.

ECO steam setting

- Select the **ECO** steam setting instead of the maximum steam setting to save energy, yet to achieve satisfactory ironing results. (Fig. 12)

Dry ironing

- Set the steam control to (dry ironing) to iron without steam. (Fig. 3)

Cleaning and maintenance

- Cleaning**
- Set the steam control to (dry ironing), unplug the iron and let it cool down. (Fig. 3)
 - Pour any remaining water out of the water tank.
 - Wipe flakes and any other deposits off the soleplate with a damp cloth and a non-abrasive (liquid) cleaning agent.

Caution: To keep the soleplate smooth, avoid hard contact with metal objects. Never use a scouring pad, vinegar or other chemicals to clean the soleplate.

Note: Regularly rinse the water tank with tap water. Empty the water tank after rinsing it.

Calc-Clean function

IMPORTANT: To prolong the lifetime of your appliance and to maintain good steaming performance, use the Calc-Clean function once every two weeks. If the water in your area is very hard (i.e. when flakes come out of the soleplate during ironing), use the Calc-Clean function more frequently.

- Make sure the appliance is unplugged and the steam control is set to (dry ironing). (Fig. 3)
 - Fill the water tank to the MAX indication (Fig. 4).
- Do not pour vinegar or other descaling agents into the water tank.
- Plug in the iron and set the temperature dial to MAX (Fig. 13).
 - Unplug the iron when the temperature light goes out.
 - Hold the iron over the sink. Push the steam control to the Calc-Clean position and hold it (Fig. 14).
 - Gently shake the iron until all water in the water tank has been used up (Fig. 15).

Caution: While scale is flushed out, steam and boiling water also come out of the soleplate.

- Set the steam control back to (dry ironing). (Fig. 3)

Note: Repeat the Calc-Clean process if the water that comes out of the iron still contains scale particles.

After the Calc-Clean process

- Plug in the iron. Let the iron heat up to let the soleplate dry.
- Unplug the iron when the temperature light goes out.
- Move the iron gently over a piece of cloth to remove any water stains on the soleplate.
- Let the iron cool down before you store it.

Storage

- Unplug the iron and set the steam control to (dry ironing). (Fig. 3)
- Wind the mains cord round the cord storage facility and store the iron on its heel (Fig. 16).

Environment

- Do not throw away the appliance with the normal household waste at the end of its life, but hand it in at an official collection point for recycling. By doing this, you help to preserve the environment (Fig. 17).

Guarantee and support

If you need information or support, please visit www.philips.com/support or read the separate worldwide guarantee leaflet.

Troubleshooting

This chapter summarises the most common problems you could encounter with the appliance. If you are unable to solve the problem with the information below, visit www.philips.com/support for a list of frequently asked questions or contact the Consumer Care Centre in your country (see the worldwide guarantee leaflet for contact details).

Problem	Possible cause	Solution
Water drips from the soleplate or wet spots appear on the garment during ironing.	The set temperature is too low for steam ironing.	Set an ironing temperature that is suitable for steam ironing. See table 1.
	You have put an additive in the water tank.	Rinse the water tank and do not put any additive in the water tank.
The steam boost function does not work properly (water leaks out of the soleplate).	You have used the steam boost function too often within a very short period.	Wait a while before you use the steam boost function again.
	You have used the steam boost function at a too low temperature.	Set an ironing temperature at which the steam boost function can be used (●●● to MAX).
Flakes and impurities come out of the soleplate during ironing.	Hard water forms flakes inside the soleplate.	Use the Calc-Clean function (see chapter 'Cleaning and maintenance', section 'Calc-Clean function').
Water drips from the soleplate after the iron has cooled down or has been stored.	You have put the iron in horizontal position while there was still water in the water tank.	Empty the water tank and set the steam control to position 'dry' after use. Store the iron on its heel.
Water leaks from the cap of the filling opening.	You have overfilled the water tank.	Do not fill the water tank beyond the MAX indication. Pour excess water out of the water tank.
When I push the steam control to the turbo steam position, the steam control jumps back.	You did not keep the steam control in the turbo steam position.	If you want to use turbo steam, you have to keep the steam control in the turbo steam position continuously. For other steam settings, this is not necessary.

简介

感谢您的惠顾，欢迎光临飞利浦！为了您能充分享受飞利浦提供的支持，请在 www.philips.com/welcome 上注册您的产品。

基本说明 (图 1)

- 喷雾嘴
- 注水口盖
- 蒸汽控制
 - CALC CLEAN** = 自动除垢功能
 - = 干熨
 - ECO** = 低能耗
 - = 最大蒸汽量
 - = 增压蒸汽
- 蒸汽喷射按钮 (仅限于特定型号)
- 喷雾按钮
- 温度旋钮
- 温度指示灯 (仅限于特定型号：带安全自动关熄指示灯)
- 电源线
- 型号铭牌
- 水箱，带最大 (MAX) 水位标示
- 底板

注意事项

使用本产品之前，请仔细阅读本使用说明书，并妥善保管以备日后参考。

- 危险**
- 切勿将熨斗浸泡到水里。

警告

- 在将产品连接电源之前，请先检查产品所标电压与当地的供电电压是否相符。
- 如果插头、电源线或产品本身已经明显损坏，或产品曾坠落或出现渗漏，请勿再使用产品。
- 如果电源软线损坏，为避免危险，必须由制造厂或其维修部或类似的专职人员来更换。
- 电源接通期间，使用者不得离开。
- 在向水箱注水之前，务必从电源插座上拔下产品的电源插头。
- 器具不打算由有肢体、感官或精神能力缺陷或缺少使用经验和知识的人（包括儿童）使用，除非有负责他们安全的人对他们进行与器具使用有关的监督或指导。
- 请照看好儿童，本产品不能用于玩耍。
- 将产品和电源线放在儿童接触不到的地方。
