- Detachable parts - dishwasher-safe
- Fry, bake, grill and roast your favourite foods at home

Thoughtfully designed

- Large 0.8-kg capacity, 20% more compact*
- Universal EasyClick handle — easily exchange accessories

Highlights

Crispy and tender results

Thanks to Philips TurboStar technology, all food is exposed to this constant, circulating heat and is cooked through simultaneously. The result is evenly fried food with no turning needed, even when food is piled up. In addition to the heated air flow, powerful direct heat from above quickly crisps the food for delicious, golden-brown results. Crispy on the outside, tender on the inside.

Inspiring recipes

The Philips Airfryer app is free and filled with delicious recipes and easy-to-follow step-by-step cooking instructions. Get inspired with quick, healthy snacks or meals for special occasions.

Instant heat-up

The Philips Airfryer is ready to use immediately. Inherently faster from start to finish, it drives everyday usage with its superiority throughout the cooking process.

Small in size, big in capacity

The new Airfryer has been designed with compactness in mind (20% smaller), but is still able to cook a large amount of food (800 g). With its reduced size, it blends in perfectly on the kitchen worktop and serves delicious meals for the whole family. Its well-considered size enables everyday usage and a world of possibilities.

Dishwasher-safe parts

The removable non-stick coated drawer and the food basket are dishwasher-safe for easy cleaning. The Philips Airfryer with TurboStar Technology saves you and your home from the smell of fried oil compared to a standard fryer.

Versatile cooking

Not just great for frying, the innovative Philips Airfryer with TurboStar technology also lets you grill, bake and even roast your favourite dishes for a one-stop solution for all of your meals.

Healthier frying

The unique Philips TurboStar generates fast, superheated air to fry your food with little to no added oil. Philips Airfryer also creates less smell than conventional fryers, it is easy to clean, safe and economical for your daily use!

50% more homogenous results

The innovative Philips TurboStar technology swirls the hot air rapidly through the whole basket. This results in more homogenous heat distribution and therefore 50% more evenly fried food*. There is no need for turning — even when food is piled up. In addition, powerful direct heat from above quickly crisps the food.

Universal EasyClick handle

Philips' new universal EasyClick handle helps you mix and match the right cooking accessory and achieve the best results for your key dishes, every day. Additionally it allows for compact storage after use.
