# Highlights

## Opti Temp Technology

Unique Opti Temp technology in OTG ensures uniform cooking of the ingredients with the benefit of optimum browning, better crispiness.

## One touch 10 preset menu

Not just bake, toast or grilled but Philips OTG featuring with 10 customised Indian menus which covers multiple recipes with expert results. It's exclusively designed Preheat mode heats the entire chamber which supports recipes like cakes, muffins, pizzas, bread, bun, bagel and cookies. Customised modes like Grill and Tikka makes cooking Indian cuisines a lot easier than before.

## Convection mode

Optimum temperature setting powered with convection mode maintains uniform heat dispersion due to good hot air ventilation that

keeps the temperature even throughout cooking. It facilitates even cooking as well as it uniformly caramelizes sugars during roasting and gives crispy crunchy texture with optimum browning wherever required.

## Multi functional modes

Philips OTG has customized level in each type of functional modes, be it level of crispiness in toasting and bagel preparation. Additionally, It features rotisserie functions for delicious, evenly cooked tandoori.

## Digital display panel

Philips OTG has easy to use digital panel for selecting modes, recipes and time, temperature control.

## Accessories for multi cooking

Philips OTG has accessories like drip tray, tongs, baking tray, rotisserie, grilling rack which supports multiple recipes like baking, roasting, broiling, toasting & grilling. All accessories are food graded and rust free for easy maintenance & cleaning.

## 90 minutes auto cut-off

Philips OTG has an auto cut-off feature which has a maximum time limit of 90Mins cooking enabling you to cook large quantity for a larger family.

## Chamber light

Philips OTG has a Chamber light for easy monitoring of food while cooking. This feature supports the user to have more control on recipe being cooked.
