Less refilling for longer ironing sessions

Iron with large watertank

Philips SmoothCare steam iron range has one of the largest watertanks there is for steam irons. Iron longer without refilling! Powerful steam will enable you to remove the tough creases easily.

Comfortable ironing

- Drip-stop system keeps your garments spotless while ironing
- Extra large 400 ml watertank needs less refilling

Longer lifetime

- Double Active Calc System prevents scale build-up

Easily removes creases

- Continuous steam output up to 40 g/min
- Ceramic EasyFlow soleplate
- 170 g steam boost for the most stubborn creases

Highlights

Double Active Calc System

Double Active Calc system of your Philips steam iron prevents scale build-up through anti scale pills and an easy to use calc clean function.

Drip-stop system

The Drip Stop system of your Philips steam iron lets you iron delicate fabrics at low temperatures without having to worry about stains from water droplets.

Up to 40 g/min of steam

Philips steam iron with continuous steam output of up to 40 g/min gives you the perfect amount of steam to efficiently remove all creases.

Large watertank

Comfortable ironing with less refilling. The 400ml XL water tank allows longer ironing without refilling. The large buttons and comfortable steam slider are easily accessible and give you full control.

Ceramic EasyFlow soleplate

Ceramic EasyFlow soleplate is scratch resistant, glides well and is easy to clean.

170 g steam boost

Applying the steam boost will release a steam shot up to 170 g to remove even the toughest creases
